## Zubereitung

### Smoky BBQ ketchup

Finely chop the onion and garlic and sauté in a pan with Byodo frying olive oil. Then add the ketchup and all the other ingredients and mix well. Simmer the sauce for 5 minutes and add a little more water depending on the desired consistency.

### Fruity mango and ginger ketchup

Peel the mango and cut into small cubes. Finely chop the ginger, onion and garlic and sauté in a pan with the heated oil. Then add the ketchup and all the other ingredients and mix everything well. Simmer the sauce for 5 minutes and then puree with a hand blender. If the mango and ginger ketchup is too thick, you can add a little more water while it is simmering.

### Hot jalapeno ketchup

Peel and finely chop the onion and garlic. Heat the frying oil in a pan and sauté both. Add the ketchup and all the other ingredients and mix well. Simmer the sauce for 5 minutes and add a little water if necessary, depending on the desired consistency.

The dried jalapenos can also be replaced with fresh ones. We recommend approaching the spiciness and therefore the amount of fresh or dried chilies carefully and using less at first.

### Our tip

We serve grilled potatoes and (vegan) sausages as delicious currywurst variations with the ketchup variations.

For the grilled potatoes, cut large potatoes into 1 cm thick slices. Put the water in a pan, add the Byodo sea salt and 1 teaspoon of baking powder. Pre-cook the potato slices in it for 5 minutes. Drain the water, allow to evaporate and then grill on both sides until golden brown. Grill the sausages on both sides until crispy.

Pour the warm ketchup over the sausages and sprinkle with curry powder.
