Zubereitung

Preparation of raspberry muffins

Sieve the flour into a large mixing bowl and mix with the sugar, vanilla sugar, baking powder and salt. Measure out the baking oil and vegetable drink, mix a little, pour into the dry ingredients and stir together. Carefully fold the almonds and raspberries into the batter. Line a muffin tray with tins and fill each one about $\frac{3}{4}$ full with the batter. Bake in a preheated oven at 180 °C top/bottom heat for 20-25 minutes.

The quantity is enough for approx. 14 muffins.

Preparation of vegan topping

The cooled muffins taste great on their own with a dusting of powdered sugar. For the vegan topping variant, mix a fruit glaze as in the American recipe and pour onto the muffins.

Preparation of mascarpone cream

For the cream topping, briefly mix the mascarpone with the powdered sugar. Add the cream and whip until the mixture resembles whipped cream. Divide the cream into three bowls and color as desired with raspberry puree or food coloring. Pour the cream into a piping bag with a star-shaped nozzle and pipe decoratively onto the cooled muffins. Sugar sprinkles round off the decoration. Place the finished cupcakes in the fridge until ready to serve.
