

# TASTES LIKE *seventh heaven!*

These three new and delicious **Byodo desserts** offer heavenly light gourmet pleasure in premium 100 % organic quality! As the days slowly begin to grow colder and the nights draw in, it's time to treat yourself and pamper your soul. Your customers simply won't be able to resist the intensely chocolatey **Mousse au Chocolat**, light and delicate **Vanilla Mousse** and delectably fruity **Berry Mousse!**

The three newcomers can be garnished perfectly with fresh seasonal fruits or one of our **fruity cremas**. Not only that: the desserts are only well suited as an airy cream filling for a biscuit base or a tempting topping for small baked goods like muffins. Your customers can let their creativity run wild!

The new desserts are completely **free of gelatine** and can be **prepared cold** lickety-split in just three minutes. They can be sweetened to taste with the agent of your choice and are ready to eat immediately.

The delicious, airy desserts need only a few, but particularly good ingredients: a little rice starch, original Bourbon vanilla, some sweet whey powder, a pinch of sea salt and, for two of the varieties, the respective flavouring in the form of wonderfully intense cocoa powder or fruity blackcurrant and blueberry powder.

### The big bonus:

-  baked goods stay **moist and fresh** for longer

-  the fatty acid content is considerably more valuable compared with butter

Whether for fine cake mixtures, sweet baked goods or Christmas biscuits that smell amazing, the fine and sweet hint of marzipan in **Baking Oil Exquisit** makes any baking project a mouth-watering success. Byodo **Baking Oil Classic** is great for baking savoury treats, but sweet cakes and baked goods made with it are also airier, moister and stay fresh for longer. "Prized" high quality that not only the experts love! Byodo **Tomato Ketchup without granulated sugar** managed to win over the judges and was awarded the "SEHR GUT" (very good) rating by Öko-Test in the 05/2020 issue.

The panel tested tomato ketchup varieties from 20 manufacturers and **Byodo Tomato Ketchup** impressed not only with its **fruity taste**, but also with the **bold red colour** thanks to its **high lycopene content** and its gentle sweetness, which were decisive for the excellent result too.

**Ketchup for Children** in the **handy PET-Bottle** now has a new and improved recipe! Refined only with **apple sweetener** and still packed with 80% tomato concentrate, it has a deliciously and intensely fruity flavour without being too sweet. Just right for the little ones, who can even dispense the right amount of ketchup on their own using the practical **squeeze bottle**.
